# *Fuchsias . . .*

**A WELCOME NOTE**—We cordially invite the public to visit our gardens, the best season for Fuchsia blooms extending from May to November. Besides our World Famous Fuchsia collection, we take great pride in our ornamental trees and shrubs, many of which are uncommon and rare.

**NAMES**—The names given are those most generally accepted and we are constantly working to clear up nomenclature where in doubt, in fact have imported plants from abroad merely to clear up doubt in some instances. The varieties in our previous list have been thoroughly checked for duplications and where a name is missing from this list it will generally be found under a more correct name.

**CULTURE**—Fuchsias love the shade and moisture and for this reason are well adapted for the shady side of buildings where they give a wealth of bloom. They respond to a rich soil and applications of well rotted manure is advocated with additional feedings of more concentrated plant food. They will not stand an outside temperature below 20 degrees Fahrenheit.

**PRICE**—Price of all plants except where noted otherwise are as follows:

Four-inch pots, 6 inches high, at 25c each.

Four-inch pots, 8 to 12 inches high, at 35c each.

Six-inch pots, 12 to 18 inches high, at 50c each.

Nine-inch pots, specimen plants, \$1.50 and up.

Trained to standard form without frame, \$2.50 up.

Specimen plants at \$1.50 each and up.

**SUBSTITUTIONS**—When ordering by mail it would be wise to list a few substitute varieties in case certain ones ordered are out of stock. Otherwise we will use our discretion in making substitutions.

**SALES TAX**—All orders in California add 3% sales tax to the above prices. Orders from 15 cents to 49 cents, 1 cent tax; 50 cents to 83 cents, 2 cents tax; 84 cents to \$1.16, 3 cents tax; \$1.17 to \$1.49, 4 cents tax; \$1.50 to \$1.83, 5 cents tax and for each additional \$1.00 add 3 cents. Orders shipped outside of California are not subject to this tax.

**SHIPPING**—We prepay all cash orders over \$1.50 in California. Outside of California, shipping charges are to be paid by purchaser. Such orders will be sent charges collect if payment does not cover. For instance, four plants from four-inch pots will weigh three pounds packed for shipment and for each plant over four add one-half pound and rates from the different zones may be computed.

## *Fuchsias as Pot Plants*

Many varieties make admirable pot plants for porches and outside terraces. When so grown they should be kept well watered and fed frequently, possibly every six weeks during the growing period.

Our recommendation is GAVIOTA FERTILIZER used in small quantities with a mulch of peat moss on top of the soil.

When treated as above they will reward you with plenty of bloom.
